Our teams have been hard at work, and we're excited to let you know improved drop rates have arrived! In this post we're going to go into details about what's increasing in this particular update, as well as giving you a sneak peek at some major changes to the upcoming Daeva Pass Season 15.

Before we jump into it, we also want to let you know you can claim this adorably fierce Stormwing as your 30-Day Pet if you act before August 31st.

Simply answer a few short questions about the new patch using the survey system, and this little guy will be headed your way.

Drop Rates Raising

Drop Rates are being increased across the board. This includes all the field drops as well as **Kinah drops**. These boosted drop rates should help significantly to gear up for end game content!

- Kinah drop increase
- Noticeable field drop rates increase across all fields in the game
