Class Update

New Class: Hellshot

The new class 'Hellshot' has been added.

- A mid-range magical damage dealer specializing in rapid attacks and combo chains to subdue opponents.
- Primarily wields the new weapons 'Pistol' and 'Leather'.
- Possesses 'Overcharged Shot', which increases damage when skill critical hits occur consecutively.

Key Skills

Skill Name	Skill Details
Autoload	Deals up to 2 Critical Hits in 10 seconds.
Reload	Resets cooldown time for all your skills.
Gunshot	Inflicts Magical Fire damage on targets within 20m, with a chance to slow them.
Crosstrigger	Inflicts Magical Water damage on targets within 20m, reducing the opponent's MP and restoring your MP.
Trunk Shot	Inflicts Magical Earth damage on targets within 20m. The targets are stunned for a short duration. Grants 1 Overcharge Energy when used on targets immune to Stun.
Quieting Gale	Inflicts Magical Wind damage on targets within 20m and silences them for a short duration. Inflicts extra damage when used against targets with immunity to Silence.
Paralysis Cannon	Inflicts Magical Earth damage on targets on the ground within 20m and puts them in Aether's Hold. Grants 1 Overcharge Energy when used on targets immune to Aether's Hold.
Hypno Shot	Puts targets within 20m to sleep for a short duration and increases all their elemental defenses. Deals bonus damage when used on targets immune to Sleep.

Green Grenade	Inflicts Magical Earth damage on targets within 20m and immobilizes them for a short duration. Deals bonus damage when used on targets immune to Immobilization.
Missile Guide	Inflicts Magical Water damage on targets within 20m and removes their protection effects.
Parting Shot	Inflicts Physical damage on the target within a 10m radius of you and pushes you back 15 m.
Anti-Enemy Fire	Inflicts Magical Fire damage on targets within 20m, absorbing 50% of their HP and 30% of their MP.
Judgment Blast	Inflicts Magical Fire damage on up to 10 enemies between a target within a 40m radius and you, and puts them under Aether's Hold. Grants 1 Overcharge Energy when used on targets immune to Aether's Hold.
Hell Unleashed	Consume Divine Power to transform into Hellshot. While transformed, your Magic Boost, Magic Accuracy, Attack Speed, Movement Speed, and PvE Attack increase, and you reflect skills used by PCs attacking from beyond 13m.
Black Hole Bullet	Summons a Black Hole at the target location for 12 seconds. The Black Hole continuously draws in up to 6 enemies within 10m and slows their movement speed.
Summon: Auto Bombardment	Summons 2 Auto Cannons in front of you. Auto Cannons cannot move and remain in place, firing long-range Fire-element magic attacks at targets designated by the caster within 25m. Each attack consumes your own HP.
Vengeful Barrage	Inflicts Magical Fire damage on targets within a 20m radius and up to 6 enemies within a 10m radius of the target and Stuns them. Grants 1 Overcharge Energy when used on targets immune to Stun.
Anticipation	Increases Stun, Knockback, Stumble, Spin, and Ether’s Hold by 500 and reduces damage taken when attacked by a PC for 13 seconds.
Pressurized Chamber	For 8 seconds, every attack has a 100% chance to inflict an additional hit, increases the effectiveness of Magic Attack skills, and boosts damage against other players.
Overcharged Shot	Grants 1 Overcharge Energy when your skill attack lands a Critical Hit. When Overcharge Energy reaches 5 stacks, enter Overcharge Frenzy, increasing the power of Magic Attack skills for 5 seconds.
Sighting (Stigma)	Increases Magic Accuracy and Magic Boost.
Eye of the Flame Heart (Lv69 Skill Book)	Increases Magic Accuracy 270, Magic Boost 135, and Magic Crit. 20

Level

1. Expands the maximum level of characters to 75.
    - Deva Potential increases upon reaching each level.

2. Changed the maximum level to enter main dungeons and battlegrounds to level 75.

Character Creation and Growth

1. Changed so that players can now choose a secondary class during character creation.

2. Characters created with a primary class will now be transferred to a designated area to proceed with secondary class ascension.

3. Changed so that newly created characters now begin in the metropolis upon first login.

4. The starting equipment and consumables provided at character creation have been updated.

5. Adjusted the composition and rewards of missions from levels 1 to 60.
    - Removed previous missions related to class ascension, Stigma slot unlocking, Balaurea, and Rafslan, and added new growth missions and quests.
    - Existing characters below level 60 will be moved to a metropolis and gain access to new missions.

6. Changed Stigma slots to automatically open based on level.

7. Adjusted the level restrictions for Stigma skills. As a result, the skill merchant NPC’s sale list has been simplified, and the number of Stigma Shards required has been rebalanced.

8. Adjusted the acquisition level of skills that are automatically acquired.

Altar of Transcendence

1. Added the 'Auto-Register Materials' button.

    1. Selecting a button automatically fills the Combination slots with the required materials.
    2. Auto-Register will randomly register available items, so be careful when registering.

2. Added the ability to perform Batch Combination.
    - The combination quantity can be adjusted when you have materials for multiple attempts.
    - The combination will be performed in batches according to the selected quantity.

3. The item combination animation has been sped up.

4. When registering materials for combination, the item names are now shown in their slots.

5. The combination now requires a fixed number of materials.
    - Godstone: Fabled x2, Heroic x6, Superior x6
    - Manastone: **Fabled** x2, **Heroic** x6, **Level 60 Superior x6**, Level 50 and below Superior x6, Level 60 Normal x6, Level 50 and below Normal x6

6. Fixed an issue where Ctrl + Right-clicking on the Altar of Transcendence list would display an unknown text in the Chat window.

7. Changed the text displayed for expected results when combining at the Altar of Transcendence.

8. Changed the category image for the Altar of Transcendence.

9. Changed the image of the Godstone Combination list.

10. Added Seed Fragment Combination.

11. Added Prism Core Combination.

12. Added a new Fabled Manastones Combination.
    - Use 2 Fabled Manastones to attempt to obtain another Fabled Manastone.

13. Added a new Heroic Manastones Combination.
    - Use 6 Heroic Manastones to attempt obtaining a Fabled Manastone.
    - On Combination failure, returns 1–5 Heroic Manastone Boxes and additionally grants 1–3 Fabled Manastone Fragments.
    - Assemble 50 Fabled Manastone Fragments to obtain 1 Fabled Manastone Box.
    - The previous Combination allowing 2 Heroic Manastones to retry for another Heroic Manastone has been removed.

Arca Seed

1. Added new equipment, 'Arca Seed'.
    - Equipping the Seed grants a bonus to critical damage.
    - Added six new Eternal Arca Seeds, each based on different secondary options.
    - Seed Fragments can be combined at the Altar of Transcendence or obtained from monster drops in the Teva Fields.
    - This will be updated next week to allow you to use Seed Fragments to change to other kinds of seeds.

2. Added battlefield items that affect Arca Seed Combination attempts.
    - Failed Arca Seed Combination at the Altar of Transcendence now has a chance to grant 1–3 Arca Seed Marks.
    - The ‘Arca Seed Box’ can now be crafted at Siel’s Anvil using 30 Arca Seed Marks.

3. A new method has been added to attempt to convert Arca Seeds into other types of items.
    - At Siel’s Anvil, 1 Arca Seed and 30 Arca Seed Fragments can now be used to craft an ‘Arca Seed Box’.
    - Opening an Arca Seed Box grants one of six types of Arca Seeds. (Note: You may receive the same type as the Arca Seed originally used as a material.)

4. Seed Enchantment content has been added.
    - Enchantment can be performed using Enchantment Stones and ‘Arca Augment Stone’. Success rates depend on the level of the Enchantment Stone, and enchantment attempts require the necessary number of Arca Augment Stones.
    - Enchantment success rates and the required number of Arca Augment Stone vary by enchantment level.
    - On successful enchantment, the item’s level increases by +1. On failure, the item remains at its current level.
    - Boost Crit Damage stat increases with each successful enchantment.
    - Failed enchantments accumulate a portion of the success rate, which is added to the next attempt within the same enchantment tier.
    - Bonus success from failed enchantment resets on success and is not applied if the base chance is 0%.

5. Added 'Arca Augment Stone'.
    - Arca Augment Stones can be obtained by disassembling Arca Seeds with Siel's Hammer.

Balaurea

1. The Fortress Weekly quest NPC and the Book of Adventure quest NPC have been relocated near the Dimensional Vortex NPC of each faction, as well as to the Watchpost/Outpost.

Battleground

1. Changed the quest drop and battleground exit locations for Chantra Dredgion, Tiak Research Center, and Black Vevium Battlefield from the Balaurea to Sanctum/Pandaemonium.

Character

1. Fixed a bug where a male Chanter character would not output a motion when using the skill 'Crashing Strike I' with the Staff.
    - Added new stat 'Boost Crit Damage'.

Daeva Potential

1. Characters ranked within the top 5 for their class in the server’s Daeva Potential rankings and equipped with Divine equipment will now receive a special exclusive visual effect.

2. Changed the Daeva Potential Ranking to be output from the Integrated Battlefield Server.

3. Changed character levels above level 66 to be included in the Daeva Potential value.

4. Adjusted the potential value of the Fleet Admiral's Protective Cloth equipment to be the same as the Fleet Admiral's equipment of other materials.

5. The 'Radar Expansion I' skill is available as a reward for reaching 22,000 Daeva Potential on the Classic server.
    - The 'Radar Expansion I' skill allows you to permanently expand the field of view of the compass radar by 180 degrees.

6. Fixed an issue where the Daeva Potential Ranking buff was intermittently unobtainable.

Enchantment Synergy

1. Changed the conditions for Enchantment Synergy to apply.
    - Before: Equip 5 or more PvE/PvP weapons and armor, respectively -> After: Equip at least 1 item eligible for the Enchantment Synergy, regardless of whether it’s PvE or PvP gear

2. Enchantment Synergy effects now scale per level (L1–90) instead of by ranges.

3. The level-based Enchantment Synergy popup now allows you to compare the effects of the 'Active Enchantment Synergy' with an 'Enchantment Synergy to Compare'."

4. Fixed an issue where the incoming Godstone Elemental Damage Reduction was not applied correctly.

5. Adjusted the effects of Enchantment Synergy for certain ranges at +75 Enchantment and above.
    - Adjusted certain effects that previously applied only in specific ranges to also take effect in lower ranges.
    - The adjustment affects AP Gain Boost.

6. Enchantment Synergy has been expanded to a total of 105 levels.

7. Enchantment Synergy activates by combining Seed Enchantment values with your current equipment.

Field

1. Each faction's Metropolis has been changed to a Bind Point.
    - Sanctum and Pandaemonium have been restructured, and some areas will be sealed.
    - These sealed areas will be utilized as new content zones in the future.
    - The locations of main NPCs have been adjusted to focus around the plaza.
    - Direct travel from the Metropolis to World regions is now available.
    - Free flight is now available in the Metropolis.
    - Added map click travel to Bind Points.

2. The Balaurea area has been changed to a growth zone.
    - Has been redesigned as a level 1–60 growth field, with adjustments made to monster spawns and gathering resources.
    - Focused hunting zones have been added in certain regions, and players can now obtain repeatable hunting quests for leveling upon entering these zones.
    - The growth zones were set as neutral zones, and the final zone, where Fortress Battle takes place, was set as normal.
    - Changed to allow free flight in the Balaurea area.
    - Added map click travel to Bind Points.

3. Changed some settings within Tiamaranta Mesa.
    - Painting appraisals now have a chance to drop 'Forgotten Memory Shard' instead of 'Unappraised Tiamaranta Treasure Map'.
    - The Black Marketer no longer appears.
    - The Relics Exchanger NPCs have been consolidated into one. The consolidated NPC can now be found near the Luna Ship.

4. Changed some settings within Teva.

- Unappraised Map from Teva monsters can now randomly include maps for Tiamaranta Mesa and Tiamat’s Treasury, alongside the existing maps.
- Legion buffs and Potential Ranking buffs can now be purchased in Teva.
- Changed to enable the Return Base feature from other regions to Teva.
- Hidden Island-related quests have been changed to weekly.

5. The Rafslan region has been removed.
    - Main content rewards, which were previously in Rafslan, will be placed in Tiamat's Treasury.

Instanced Dungeon

The existing 'Harbinger of Fate' dungeon has been replaced with the new dungeon, 'Kaiju Rival Battle.

New Dungeon: 'Kaiju Rival Battle'

Elyos/Asmodian	Luna's Teva Transporter Shugo	Luna's Temporary Dock	Level 65 or higher	Free
Elyos	Teva Transporter Shugo	Battleship Somnium	Level 65 or higher	5,000 Kinah
Asmodian	Teva Transporter Shugo	Battleship Nornir	Level 65 or higher	5,000 Kinah

1. Teva allows groups of up to 2 players. In disputed land, groups can only be formed with members of the same legion.
2. When a certain number of monsters are defeated in specific areas of Teva, an anomaly occurs in the area, triggering an on-site mission quest. Players can accept and complete the quest to earn rewards.
3. After the anomaly occurs a certain number of times, a portal to Hidden Island will appear. Players can use the portal by paying the corresponding Teleporter for each portal.

4. Teleporters can be purchased from the 'Arcanium Exchanger Shugo' in the Black Cloud Secret Base by spending Arcanium.
    - Spend Arcanium to purchase various rewards from the ' Arcanium Exchanger Shugo'.

5. The Arcanium Exchanger Shugo can be found not only in the Black Cloud Secret Base but also in various other regions, with each location offering different items for sale.

6. Changed the Arcanium Exchange Shugo location to show up on the map.

7. Arcanium acquisition rate has been increased for faster collection.
    - The amount of Arcanium obtained from defeating monsters in each region has been increased, with occasional large bonus amounts awarded.
    - Added Arcanium as a reward for Teva Urgent Orders (unlimited monster kill quests) and increased XP rewards for lower-tier region quests.
    - Sealed Lesser and Regular Treasure Chests in the field can now be opened immediately without a key (Tiamat's Flame). Chests grant large amounts of Arcanium and have a chance to obtain an Admiral Armor Selection Box additionally.

8. Rewards obtainable and exchangeable in the field have been added, and their values increased.
    - Added Lunanerk's Kinah Bundle (Fabled) as rewards for the [Daily] Teva Sweeper Quest.
    - The contents of the 'Trader's Small Kinah Bundle' have been doubled. Price has been set to 1,500 Arcanium, with a purchase limit of 2 per account.
    - Golden Order Scroll and Secret Order Scroll can now be purchased with Arcanium.
    - Opening Sealed Lesser and Regular Treasure Chests grants a chance to obtain an Admiral Armor Selection Box, while opening Sealed Greater Treasure Chests guarantees an Admiral Armor Selection Box.

9. Reduced the amount of Arcanium dropped upon death in Teva.
    - Accordingly, the rewards from gathering collectibles that spawn upon death have been adjusted.

10. Reduced the cooldown time for Prism Cores.

11. Changed the Crimson Earth Spiner so that its 'Sand Toss' skill can now be canceled.

17. Fixed an issue where the [Daily] Teva Sweeper quest could not be completed intermittently.

18. Added a description to the Hidden Island quest about how to get to the Hidden Island and how to purchase a Teleporter.

19. Fixed an issue where Gravity Dramata Arkanere and Petrified Dramata Vargramos would not cast skills.

20. Sealed Greater/Regular/Lesser Treasure Boxes have been added to the Fissure Fragment, Petrifying Afterimage, and Debris of Gravity.

21. Fixed an issue where the debuff icon for 'Alukina of Reminiscence' would intermittently disappear.

22. Fixed the map not displaying the location of the monsters to be defeated in the Teva Regional Quest.

23. Adjusted the base Potential values for each region in Teva.
    - Based on their Field Potential, battles with Field Monsters and Field Mission Monsters have different effects based on their Potential.
    - Damage dealt to monsters increases when a player’s Potential is high.
    - When a player’s Potential is low, damage taken from monsters increases, and damage dealt to monsters decreases.

24. Sealed Lesser/Regular/Greater Treasure Boxes now appear at random locations.
    - An alert message is displayed nearby when it appears.
    - An alert message is displayed nearby when an acquisition is attempted.

25. Fixed an issue where debuffs were applied even when Mantutu of Reminiscence’s HP was above 20%.

- Adjusted the spawn locations and respawn times of Drakan monsters in the Eternal Garden.

- Changed so that players can now obtain Manastones from defeating Teva field monsters.
  - Defeating monsters in the following areas now has a chance to drop Manastones: Debris of Gravity, Petrifying Afterimage, Fissure Fragment, Surge of Wrath, and Eternal Garden.
  - This does not apply to certain gateways or named monsters.

- Adjusted so that the Merkatonerk NPC now appears.

Teva System

1. In Teva, activity time is consumed while playing, and players will be forcibly removed when their activity time runs out.

2. Remaining activity time can be checked at the bottom of the Teva map.

3. Base activity time resets every day at 5:00 AM. Extra activity time can be restored with Teva's Flowing Hourglass' item.

4. Teva's Flowing Hourglass has a low chance to drop from monsters.

5. Added 'Arcanium', which is only available on Teva.

6. Arcanium can be obtained from monsters, quests, and gathering resources within Teva.

7. 'Arcanium' disappears daily at 5:00 AM.

8. You can view your Arcanium balance at the bottom of the Teva map.

9. Upon death in Teva, part of your Arcanium is taken, and 'Arcanium Phantom' Collectible spawns around your character depending on the amount lost.
    - Collect spawned 'Arcanium Phantom' to earn Arcanium.

10. Changed Teva's Neutral Zone (Black Cloud Secret Base) to no longer deduct activity time.

11. In addition to the Arcanium you have, there is a chance that a 'Lucky Arcanium Phantom' will spawn when your character dies in Teva.

12. Changed the size of the Lucky Arcanium Phantom's appearance.

13. Fixed some Treasure Boxes in the Eternal Garden spawning in incorrect locations.

14. Changed the skill effects for Debris of Gravity, Fissure Fragment, Petrifying Afterimage, and Surge of Wrath to output on all graphics settings.

15. Added 'L58-60 Skill Book Box' to the Medium/Large Arcanium Collectible in Teva.

16. Changed the NPCs that can drop/complete the [Daily] Teva Sweeper quest (so it can also drop/complete in Tiamaranta Mesa)

17. Added Golden Tree content to the Teva region.
    - Legions can capture the Golden Tree by defeating the Golden Tree Raid Captain.
    - Legion members who capture the Golden Tree can claim rewards from the three nearby types of Golden Trees.
    - Players can obtain rewards by defeating Drakans around the Golden Tree, regardless of whether the Golden Tree is occupied.
    - Players not in a Legion cannot claim rewards from the Golden Tree, even if they capture it.

Tiamaranta

1. Fixed Kisk placed inside progression zones not being destroyed at the start of the Battle to Seal the Dimensional Rift.

2. Earn an Adventurer Mark from Hidden Lesser/Regular/Greater Treasure Chest rewards.

3. Fixed an issue where attacking the Watching Eye would not trigger attacks from the guard entities.

4. Added Conditioning Officer to the Elyos/Asmodian Entrance in Tiamat's Treasury.

5. Changed the location of the Teva Transporter Shugo in Somnium/Nornir to next to the Bind Point Teleport Statue.

6. Skill Book Bundles are no longer dropped by monsters in the Neutral Zone of Tiamaranta Mesa, including the Island of Gravity and the Island of Wrath.

7. Added PvE quests that start at a set time in Tiamaranta Mesa Ground Central Garrison.
    - The quest can be automatically acquired when logging into Tiamaranta Mesa between 8:00 PM and 10:00 PM.
    - Rewards are granted for defeating quest monsters that appear in the Garrison at the same time.
    - Rewards are equivalent to existing Golden/Secret Orders, with increased XP gains.

8. The Golden Wind quest is now automatically acquired upon entering Tiamaranta Mesa.

9. Added the 'Arca Seed Challenge Box' to the Golden Wind quest as a reward.
    - From the Arca Seed Challenge Box, you can obtain Arca Seed Fragment and Arca Seed Mark. With 30 Arca Arca Seed Marks, you can craft a guaranteed Arca Seed at Siel’s Anvil.
        - This event will run until further notice.

10. Added 'Heavy Arca Seed Fragment Box' to the rewards for the [Daily] Retinoa/Thiamine's Favor quest.
    - This event will run until further notice.

UI

1. Changed the Stigma page to display the name of the equipped Stigma.

2. Fixed an incorrect message being displayed when attempting to equip a two-handed weapon that requires Soul Binding.

3. Fixed an issue where the equip FX would not display correctly when no equipment was equipped in the combined weapon slot during gear set options.

4. Fixed unnecessary wording being printed in the 'Show on Map' list on the Map.

5. Changed the maximum value when bulk opening and bulk assembling items to only be set to the remaining quantity in the current inventory.

6. Item tooltips have been improved.
    - Tooltips are now set to a condensed view by default, focusing on key information. You can view the full tooltip by pressing View Detail (Alt).
    - Item potential is now visible in the default tooltip.

7. Currently, potential values show only base stats. Future updates will include Enchantment, Godstone/Manastone, and Skill Reassignment effects.

8. Improved the Character Stat info window.
    - In 'View Stat Details,' you can select favorites to display only the stats you want.

9. Quickbar auto-use has been added.
    - This system allows certain consumables and buff-type skills registered in the Quickbar to be used automatically.
    - Auto-use can be enabled with Ctrl + Left-click on items in the Quickbar. The auto-use setting is retained after a World change, death, and reconnection.
    - If no input is made for a certain period of time, auto-use for items and skills becomes inactive.

10. Dedicated titles have been assigned to key NPCs to improve their visibility.

11. Fixed an issue where system messages were intermittently displayed abnormally.

12. Fixed an issue where 'My Status' and 'Target Status' were displayed in reverse in Chain Skill information.

13. Updated equipment item tooltips to display Daeva Potential values that reflect the actual applied stats.

14. Revamped the Balaurea map to display key activity areas.

15. Fixed an issue where clicking the mission/quest window from the Quest Indicator occasionally had no effect.
