New Class

1. Added the new class, "Dread Blade."

2. A class capable of both physical and magical attacks.

3. Wields the new weapon, the "Soul Sword," and can utilize various types of armor.

4. Skills are affected by Physical Attack and Magic Boost.

Key Skills

Skill Name	Skill Description
Final Execution	Teleports to a target within 20m whose Max HP is below a certain threshold and inflicts damage proportional to its Max HP. Has a chance to instantly kill the target. The cooldown time decreases as Physical Attack increases. The higher your Magic Boost, the higher the chance of an instant kill.
Oath of Soul	When HP drops to 0, the caster enters the Soul Remnant state. During the Soul Remnant state, HP is restored in proportion to your Max HP, but it also decreases your Max HP continuously. At the same time, all Debuff Resistance increases significantly. When HP drops to 0 in the Soul Remnant state, the caster dies, and dealing the final blow to a living target disables the Soul Remnant state, returning the caster to their original state. The cooldown time decreases as Physical Attack increases. The duration increases as Magic Boost increases.
Blade of Seclusion	Increases damage inflicted on the marked target and slows Movement Speed. You take less damage from all enemies except the marked target while attacking. The cooldown time decreases as Physical Attack increases.
Mystic Blade Combo	Inflicts physical damage on the target and slows it. (Stacking the Movement Speed Reduction effect twice immobilizes it.) Multicast 3 Times Inflicts additional magical damage on targets in front under certain conditions. As the Magic Boost increases, the probability of additional magic damage activating and the forward range both increase.
Arcane Blade Evasion	Removes your physical debuffs and restores HP. Resists 1 physical or magical attack for a certain period of time. At the same time, Silence and Bind Resistance increase, and some damage is decreased. The cooldown time decreases as Physical Attack increases. The duration increases as Magic Boost increases.

5. Changed and updated rewards for major content, following the addition of the Dread Blade.

6. Added the Dread Blade Stigmas to the shop skill sale list.

7. Added the Dread Blade Skill Books and Stigmas to the dungeon and Raid reward lists.
8. Added "Soul Swords" to equipment rewards.
9. Added 2 extendable weapons exclusive to the Dread Blade.
    1. Distorted Dragon Lord's weapon and Burning Downfall weapon

Balaurea

1. Placed Leader monsters in Balaurea.
2. You can obtain Daeva's Sacred Relics along with Manastones from the monsters.

Inggison Leader	Gelkmaros Leader	Level
Iron Blood Neokin	Carnal Gryphu Reaper	7
Frantic Crestlich	Hellish Polten Mamut	15
Immortal Hoodwink Gnarl	Raven Thicket Airon	20
Burrowing Laupede Butcher	Roaring Wilds Barghest	25
Millennium Tree Rotron	Naduka Bonebreaker Leader	30
Grinding Sawtooth Alitaur	Jade Ore Caltrops	35
Queen Nutilla	Apocalypse Panolem	40
Hellish Sourwind Wraithling	Golden Venom Scolopen	45
Black Horn Drake	Abyssal Swimmer Zanthay	50
Mossy Mudthorn Wraith	Wandering Drakan Researcher	55
Absolute Beybey Crettin	Queen Newtbell	60

Character

1. Changed so that you can obtain items and Potential rewards based on Level and XP achievement.
    1. You can click the icon on the XP bar at the bottom to earn rewards when you reach a certain value.
    2. Available to obtain at Level 69 or above.
    3. Any rewards for previous levels that have not yet been obtained will be obtained automatically.
2. Fixed an issue where characters resurrected in front of Vindachinerk if they died after failing to complete the Infinity Cube dungeon.
3. Fixed an issue where rewards granted upon reaching levels and XP brackets could not be obtained in the Integrated Server.

4. Changed the Hellshot's Overcharged Shot UI so that it displays the tooltip for the highest-level Overcharged Shot on mouse-over.

5. Fixed an issue where a (-) was displayed on the Boost Crit Damage value in the Character Info window while the character was advancing.

Content Changes

1. Added the "Boundary of Light and Darkness" dungeon, where you can experience the tutorial combat upon creating a character.

2. Changed the names and icons of some items.

3. Eternity Mark (Fragment) → Medal (Fragment)

4. Divine Eternity Mark → Holy Medal (Fragment)

5. Changed some of the Raid rewards.

6. Changed the Immortal, Silent, and Pacification weapons to the Eternal Balanced/Sunset weapons.

7. Changed the Irkala weapons to the Burning Downfall weapons.

8. Removed the collectibles in the Abyss, Elysea, and Asmodae regions.

9. The collectibles in the Balaurea field and the Mesa region will be retained.

10. Adjusted the drop rates of Radiant/Dark Transcendence Crystals in the Balaurea field.
11. Changed some patterns of "Tiamat" on the 4th floor of Tiamat's Sanctuary.
12. Updated the following monsters so that they do not recover HP even upon absorbing physical or magical damage: Haechi in Allos Cosmos, Sunayaka's minions in Sunayaka's Secret Chamber, and Kromede's minions in the Labyrinth of Reuniwon.

Enchantment Renewal

1. Updated the equipment enchantment rules.

2. Changed the enchantment success rate for Fabled or lower equipment to 100%.

3. For Eternal equipment, the -1 enchantment level and level reset conditions upon failure have been removed, so the enchantment level will be maintained even if the enchantment fails.
    1. When an enchantment fails, a portion of the attempted success rate will be accumulated, and the next enchantment attempt within the same tier will proceed with the accumulated rate added.

4. Updated the base success rate for each enchantment level.

5. Enchanting requires the new "Enchantment Stone" below, along with Kinah.

6. Enchantment Stones have been unified into one type.

7. Enhancements will now be carried out using this single type of Enchantment Stone, instead of the old, level-based ones.

8. The number of Enchantment Stones required varies, depending on the item grade and its enchantment level.

9. Old, level-based Enchantment Stones can be converted into new Enchantment Stones or Enchantment Stone Powder using "Siel's Hammer – Disassemble."

1. The higher the old Enchantment Stone's level, the more new "Enchantment Stones" you will receive.

2. Enchantment Stone Powder can be crafted into Enchantment Stones at Siel's Anvil.

10. Replaced the level-based Enchantment Stone rewards from content with the new Enchantment Stones.
11. Target Content: Potential rewards, Book of Adventure, Quest rewards, Legion Coin rewards, Daeva's Sacred Relic, Wall of Lament, Burning Citadel of the Sacred, Allos Cosmos, Sunayaka's Secret Chamber, Tiamat's Sanctuary.
12. Changed Potential bonus points according to enchantment levels.
13. Increased the bonus points for +7-14.
14. Siel Server: Removed the Equipment Extraction feature.
15. Removed the Extraction Tools from the NPC shops and made them unusable.
16. During next week's maintenance, the Extraction Tools you have will be changed so that they can be resold for the same amount of Kinah with which you purchased them.
17. In a future update, you will be able to obtain Enchantment Stones from equipment using "Siel's Hammer – Disassemble."
18. Changed the Normal/Rare Manastones' enchantment success rates to 100%, and also made it possible to return them.

Instance Dungeon

1. Added the new instance dungeon, ''Tiamat's Sanctuary.''

Max Players	Level Requirement	Number of Entries	Reset Time
6	65+	Once per day	9:00 a.m. every day

2. Accessible through the Dimensional Rift located in the center of Tiamat's Treasury.

3. You can earn various rewards, such as new equipment and skill books, in Tiamat's Sanctuary.

4. You can obtain the new "Enraged Dragon Lord's weapons," as well as the "Distorted Dragon Lord's weapons," which extend.

5. You can obtain the new "Tiamat's and Berserk Tiamat's armor."

6. You can obtain the new "Enraged Dragon Lord's Earrings."

7. > These earrings specialize in attack-type options.

8. You can obtain the new "L65 Skill Book Selection Box."

9. > Detailed information about the skills for each class will be provided below.

10. You can obtain various other rewards such as Admiral accessories, Fortress Guardian's accessories, Enchantment Stones, Godstones, Manastones, and Refining Stones.
11. Increased the XP gained from defeating monsters in all zones.
12. Defeating the named monster on Floor 1-4 will summon a treasure box, from which you have a chance to obtain a reward box. The reward box contains key equipment according to a set probability.
13. The treasure box requires a certain number of people to be present for opening.
14. Reward boxes can be obtained by all group members when dropped.
15. A special mission is given on each floor, and additional rewards can be obtained upon completion.
16. A "Dragon Lord's Secret Box" is hidden in a specific area, and it has a chance to be upgraded to a higher-tier secret box upon attack. The higher the grade of the secret box, the better its reward.
17. The new "Enraged Dragon Lord's weapons" can be obtained in various ways.
18. A finished weapon has a small chance of dropping from the reward box in the 4th-floor Tiamat area.
19. Can be obtained through Siel's Anvil crafting with special materials obtained from the reward box in the 4th-floor Tiamat area, with a set probability. (If crafting fails, the materials will still be consumed, but ceiling points will be earned.)
20. The special materials can also be used for a chance promotion of an existing +15 Undying Forgotten Dragon Lord's or Fierce Skirmisher's weapon, along with Major Enchantment Stone Shards.
21. > If the promotion fails, only the promotion materials will be consumed. The original weapon's enchantment level, Manastones, Godstones, and granted skills will be retained.
22. > Upon success, a +15 Enraged Dragon Lord's weapon will be granted. (Enhancement level, Manastones, Godstones, and granted skills retained)
23. The new extendable "Distorted Dragon Lord's weapons" can be obtained in finished form at a low probability from the reward box in the 4th-floor Tiamat area.
24. The new "Tiamat's and Berserk Tiamat's armor" can be obtained from all bosses and named reward boxes at a certain probability.
25. The "Tiamat's armor" has slightly higher stats compared to the existing Admiral armor, and the "Berserk Tiamat armor" has slightly higher stats compared to the existing Fierce armor. And they feature the ability to reassign Additional PvE Damage skills.
26. The "Berserk Tiamat's armor" can be crafted with guaranteed success by using materials that are 100% obtainable from the reward boxes of bosses on Floors 1-3 and in the Tiamat area on Floor 4. But a large quantity is required, so it takes a long time.
27. Added the new instance dungeon, ''Immortal Trial.''

Instance Name	Immortal Trial
Entry Level	Level 60 or higher
Max Players	1
Duration	3 min.
Entry Count	Once per Day

28. You can enter the <Immortal Trial> within Sanctum/Pandaemonium through the Dimensional Rift NPC.
29. There is a 1-minute waiting time upon entry, and you can start immediately upon interacting with the interior door.
30. Your score is proportional to the damage you inflict on the Infernos monster, with different scaling based on your class.
31. Remove Shock I, Remove Shock II, and Remove Shock: Tornado skills are restricted within the dungeon.
32. Ends immediately after 3 minutes or upon death.
33. You will earn rewards based on your score, which is reflected in your ranking.
34. You will receive a large amount of XP and Forgotten Memory Shards as a reward based on your final rank.
35. Changed the level required to enter the Kaiju Rival Battle to 60.
36. Updated the rewards for Sunayaka's Secret Chamber: You can obtain rewards such as the "L121-130 Enchantment Stone Box" and fragments, "Dragon Lord's Record Bookmark Pieces," relics, Superior Manastone Bundles, and the "Eternal Balanced" weapons.
37. You can use Dragon Lord's Record Bookmark Pieces to craft finished items at Siel's Anvil. The pieces are world-tradable.
38. "Eternal Balanced" weapons have a chance to yield Holy Medal Fragment and/or Medal Fragment when specially disassembled.
39. Added the new instance dungeon, the ''Infinite Cube'' dungeon.

Instance Name	Infinite Cube
Entry Level	Level 65 or higher
Max Players	6
Duration	10 min.
Entry Count	Once per day

40. Accessible through the <Infinite Cube> portal, which is located beyond the Mysterious Rift on the Somnium and Nornir in Tiamaranta Mesa.
41. Starts when you enter the central circular area and lasts for 10 minutes.
42. When you attack the Infinity Cube or decrease its HP to a certain amount, Cube Pieces will appear, and interacting with them grants 1 Infinity Cube Piece.
43. When you return a certain number of Infinity Cube Pieces to Vindachinerk's Afterimage, which changes its location periodically, a reward cube will appear above the central circle.
44. The more Infinity Cube Pieces you return, the more the types and numbers of reward cubes that appear.
45. The Infinity Cube also summons a reward cube above the central circle when defeated.
46. When you defeat the Infinity Cube or fight it for 10 minutes, the central circle area will change to a flyable zone, allowing you to obtain rewards from the reward cube.
47. The following types of rewards can be obtained from each reward cube.

Reward Cube Name	Basic Rewards	Additional Chance Rewards
Cube of No Boundaries	Divine Cube Piece Box, Secretive Cube Crystal, Shining Infinity Cube Relic Box	-

Cube of Time	Eternal Balanced Weapon, Secretive Cube Crystal	Eternal Sunset Weapon, Bright Infinity Cube Relic Box
Cube of Shapes	Eternal Balanced Weapon, Secretive Cube Crystal	Eternal Sunset Weapon, Common Infinity Cube Relic Box

48. By collecting a certain number of Secretive Cube Crystals and assembling them, you can obtain a Secret Cube, from which you have a chance to obtain a "Medal Fragment", a "Holy Medal", or "Vindachinerk's Twinkly Earrings."
49. Changed some patterns of the named monsters in Sunayaka's Secret Chamber.
50. Decreased the number of times Illusion Gate can be cast.
51. Updated Illusion Gate so that it only summons monsters of one type: physical or magic.
52. Updated Sunayaka's Secret Chamber so that you can obtain a reward after 10 minutes if you decrease the named monster's HP to below 50%.
53. Fixed an issue in the Kaiju Rival Battle reward room where players would resurrect at the Obelisk upon death.
54. Added Refining Stone items as drop rewards in some instant dungeons.
55. Target Instance Dungeons: Fortress of Determination, Phaistos' Disk, Wall of Lament, Tartarus, Allos Cosmos, Burning Citadel of the Sacred, Sunayaka's Secret Chamber, Labyrinth of Reunion, Secret of the Infinite Cube

Integrated World Exchange (IWE)
